DETAILED ACTION

Allowable Subject Matter

As per telephone interview with Randy A. Noranbrock (Reg. No. 42,940) on 24 March 2008, Applicant indicated the "Allowable Subject Matter" section under the NOA (Notice of Allowability) submitted on 01/24/2008 was not a correct version associated with the instant application – i.e. regarding the Allowable Subject Matter, the 3rd paragraph on page 4 (i.e., an inadvertent left-over from other application) should be deleted and only the 1st paragraph on page 5 should be kept in the NOA. Examiner acknowledged the mistakes and agreed to submit a corrected (new) version of "Supplemental NOA" as soon as possible to the Applicant.

The following is an examiner's statement of reasons for allowance:

The above mentioned claims are allowable over prior arts because the CPA (Cited Prior Art) of record fails to teach or render obvious the claimed limitations in combination with the specific added limitations recited in the independent claims.

The prior arts on record fail to teach or suggest a method of recording data during successive data recording sessions on a data storage tape of a tape cartridge loaded in a tape drive, the sessions occurring at different times, the method comprising, after the session has started and during the data recording session, writing the data set to the tape and after the data set has been written to the tape, issuing a reposition command to the tape drive so the tape is repositioned and creating a code representative of the data in the data set that has been written during the recording session between the position command and the reposition command; besides, writing the code into a memory incorporated within the tape cartridge after the tape is repositioned, wherein the memory comprises a cartridge memory that differs from the tape.
